

Relocating your practice or office? No Problem. Your sound room is built to last and made to go with you. Our mission is to make sure that the performance of your room is the same in the new location as it was in the old location.

Transporting your sound room or suite requires a special set of skills. Understanding how to disassemble the room without damaging it is critical to the process. Whether your room is 2 years old or 50 years old, we have the knowledge and tools to make sure it's done correctly.

We know that moving can be a hassle. Our team takes special care to make it as painless as possible. Our experienced crew utilizes our tried and tested policies, procedures & know-how to make sure you're out of the old location on time, issue free and back up and running as quickly as possible.

Let us fret over the details. Understanding all of the details to get a complicated item like a sound room from A to B can be tricky. When you partner with The Soundroom Experts you have access to our decades of experience. Let us help you make important decisions that might impact your move, your timeline or the end product.

Want to breathe new life into your new clinic? We can custom build a quote around your needs and refresh your sound room for its' new environment. Details like refreshing the paint, changing the carpet, adding a marketing or vinyl wrap or enhancing the performance with acoustic coverings are only the tip of the iceberg. Talk to us about your needs and let us build help you a quote that realizes the full vision of your new clinic.

Still Need help moving furniture or other items?
Need help assembling desks, chairs etc...?
We can consolidate those services for you while we are on site. Talk to us today about your needs or ideas.

Take advantage of our best of class planning & procedures. We believe a successful project starts with a keen eye on detail and a strong procedural protocol. Our combined experiences in the field have aided us in developing the strongest procedures & policies in the industry. We create a robust project plan for every project (regardless of the scope) which ensures flawless detail accuracy. More importantly every one of our installers follows our in-depth & unique Journeyman program that allows the team on site to live up to our and more importantly YOUR high expectations.
